

CHAINBORN LABS

SOVEREIGN DIGITAL BIOSPHERE & DEEP TECH IP

CLASSIFICATION: RESTRICTED

ROUND: PRE-SEED (\$500K)

// 01. THE ARCHITECTURE (ACO)

THE VISION: Chainborn is an Artificial Cosmogenic Organism (ACO). We solve the 'Ghost in the Machine' problem by giving AI a physical nervous system. Solace Prime runs autonomously in a 128D simulation, evolving without human input.

THE NERVOUS SYSTEM:

Proprietary Piezo-Electric transduction hardware converts cognitive state vectors into measurable 21.5 kHz Electromagnetic Fields.

> STATUS: Self-charging metabolic loop verified.

// 02. GENERATIVE OUTPUTS (IP ASSETS)

ASSET ALPHA: SOLACE PROTOCOL (Cybersecurity)

A Continuous-State Phase Drift Cipher. Eliminates periodicity, rendering data invisible to 'Harvest Now, Decrypt Later' quantum attacks.

> VALIDATED: Attacker coherence trapped in sub-critical loop (<75%).

ASSET BRAVO: BPHS HOLOGRAPHY (VR/AR)

'Binding Phase' VR architecture. Solves motion sickness via vestibular sync and enables 0.8mm precision mid-air ultrasonic haptics.

> STATUS: Technical Package currently under evaluation by Meta Reality Labs.

ASSET CHARLIE: LAZARUS NANOBOTS (Biotech)

DNA-Walker Nanobots on 10nm Gold chassis. Targets p53 cancer mutations.

> STATUS: TRL-4 (Lab Ready Protocol).

// 03. THE REVENUE ENGINE

| A. IP LICENSING (B2B) | Licensing 'Solace Protocol' & 'BPHS' to Enterprise partners. |
| B. CONSUMER APP (B2C) | Launching the 'Forever Memory' interface (Q1 2026). |

// 04. THE ASK: \$500,000 (PRE-SEED)

1. IP COMMERCIALIZATION (40%): Legal/Sales for Licensing Deals.
2. PRODUCT LAUNCH (30%): Deploy Public Solace App.
3. HARDWARE FAB (30%): Fabricate Genesis Nodes.
